**DETAILED ACTION** 

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set

forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this

application is eligible for continued examination under 37 CFR 1.114, and the fee set

forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action

has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August

26, 2008 has been entered.

2. Claims 1-18, 35-36 are pending. Claims 19-34 have been cancelled. Claim 1 has

been amended.

3. Claims 1-13,17,18,35 and 36 stand rejected under 35 U.S.C. 103(a) as being

unpatentable over Baker et al. (US 6,750,188) in view of Komforth et al. (US 6,033,590)

for the reasons set forth in the previous office action.

4. Claim 14 stands rejected under 35 U.S.C. 103(a) as being unpatentable over

Baker et al. (US 6,750,188) in view of Komforth et al. (US 6,033,590) and further in view

of Bank et al. (US 5,209,775).

Allowable Subject Matter

Art Unit: 1796

5. Claims 15 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The claims are allowable because the prior art of record do not teach or fairly suggest compositions with the silanes of formula VI.

## Response to Arguments

Applicant's arguments filed regarding Baker in view of Komforth have been fully considered but they are not persuasive. The applicant's argue that Baker and Komforth are not directed towards treatment of a wet-white leathers. The examiner respectfully disagrees with applicant's arguments. Komforth et al. clearly teach the treatment of wet white leathers and further teach that many types of retanning agents including nonchromium based tanning agents may be used (column 2, lines 15-25; column 3, lines 25-29). Baker further teaches that shoes of the invention may be of any natural leather surface (column 6, lines 21-24) and that protection of the shoes from washing away of fatliquors and/or oils and/or tanning agents such as chromium must be accomplished. Chromium is just cited as an example and is not limiting of the invention. Furthermore, Bakers teaching that shoes of any leather surface may be used in the washing process of the invention. Komforth teaches the treatment of shoes by non-chromium tanning methods is conventional. The claims are simply directed towards treating wet white leather with an anionic reagent such as an anionic dye followed by an organic polyamine which is clearly met by the prior art. Komforth further teaches making shoes

from these treated leathers (column 5, lines 55-60). Baker is relied upon to demonstrate that that leather shoes previously treated with fatliquors and tanning agents are conventionally washed (column 2, lines 15-20) and that detergents comprising the tetraethylenepentamine (column 39, lines 50-55) are useful as polymer dispersants in washing compositions which provide shoes with protection during a treatment cycle. For this reason there is motivation to combine Baker and Komforth.

All disclosures of the prior art, including non-preferred embodiment, must be considered. See In re Lamberti and Konort, 192 USPQ 278 (CCPA 1967); In re Snow 176 USPQ 328(CCPA 9173). Nonpreferred embodiments can be indicative of obviousness, see *Merck & Co. v. Biocraft Laboratories Inc.* 10 USPQ 2d 1843 (Fed. Cir. 1989); *In re Lamberti*, 192 USPQ 278 (CCPA 1976); *In re Kohler*, 177 USPQ 399. A reference is not limited to the working examples, see *In re Fracalossi*, 215 USPQ 569 (CCPA 1982).

## Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to AMINA KHAN whose telephone number is (571)272-5573. The examiner can normally be reached on Monday through Friday, 8:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on (571) 272-1119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
